managing CMS systems

proficiency in JIRA

### LANGUES

English: B2/C1

### EDUCATION

**Front-end Developer Bootcamp**

CodersLab Wrocław

**Kielce University of Technology**

Master's Degree in Environmental Engineering

## PROJECTS

### PORTFOLIO WEBSTIE

A fully responsive and interactive portfolio website, showcasing my proficiency in web development and design. Developed with React and styled using Tailwind CSS, the site features dynamic animations powered by Framer Motion, enhancing user experience and engagement. The contact form is secured with Google ReCAPTCHA, ensuring safe and authenticated communications. This project exemplifies my ability to create visually appealing, functional, and secure web applications.

### FOOT-LIGHTS

Developed a dynamic website using Next.js, MongoDB, and Framer Motion, providing comprehensive details on movies, TV shows, and actors. Integrated with external APIs to fetch up-to-date information, allowing users to browse content seamlessly. Implemented a secure login system enabling users to write and manage blog posts. Enhanced user experience with smooth, engaging animations using Framer Motion.
